

FRC TEAM RUN SUMMER CAMPS

FAQ

- How will teams receive funding?
 - Cheques will be issued after the completion of the camps. Teams have the option to have funding applied directly to their registration account.
- Do we have to register for the 2022 season to be eligible?
 - Yes, you need to intend to register, but we do recognize that unforeseen circumstances may prevent teams from registering next season.
- Can the funds be held until the following season?
 - Yes!
- What age group are these camps for?
 - To be eligible for funding, the campers must be in grades 5-9.
- Is the grade 5-9 target for campers meant for grades 5-9 in 2021-2022?
 - It can be students who were in Grade 5-9 in either the 2020-21 or 2021-22 school year
- Is this program only for FRC teams? What about FTC teams?
 - The program is only open to FRC teams at this time.
- What is included in the FTC kit?
 - The FTC kit is a Studica kit with standard components - what you would get if you registered an FTC team
- If we are planning on giving physical materials for camp members, are we able to send them to individual households?
 - It is up to you!
- Would I be able to tell my team that their participation in this would count towards volunteer hours?
 - Yes - as long as you aren't paying them. You will sign the hours off not *FIRST* Canada
- Would reaching out to community centers, local YMCAs and similar organizations to spread the word about our camp be allowed?
 - Yes absolutely, we love it when our teams partner with other organizations

FRC TEAM RUN SUMMER CAMPS

FAQ

- Should these camps be virtual or physical
 - Teams must follow all local public health guidelines and make safety a priority. If the current guidelines are relaxed, teams would be able to run physical camps, but must do so with an abundance of caution.
- Is the 10 student requirement per session a minimum or a maximum? Are we able to have more per session?
 - It is a guideline - talk to us if you plan on having a large number
 - We have run sessions of FTC Sim with full classes of students who were in the building, with virtual classes and hybrid and with evening drop in groups. A limit of 10 students works best in our opinion
- Do we have to register for this one time and then report at the end to apply for funding based on the number of registrations?
 - You must complete the application now and we will approve certain number of camp sessions
- Can we reach out to town registration services like the town or region to promote our camps?
 - Yes!
- LEGO curriculum OK?
 - Yes!
- Is *FIRST* Canada providing all the media consent forms / permission forms for the campers? or is that done by the teams
 - Can use the *FIRST* Canada samples but it should come from you with your team name on it
 - Ensure you are following YPP guidelines
- Do the campers have to be 10 different people for each session, or can it be 10 people for the week?
 - Same 10 campers per 5 hours of camp
 - 10 different student per camp or if you have 2 camps (e.g. advanced/beginner or mechanical/design - then in this case, you have 2 offering and the students can be same)
- Can I charge participants
 - No, camps must be fully free for participants to attend.

FRC TEAM RUN SUMMER CAMPS

FAQ

- How many teams are you looking to run these workshops (or how many camps are you looking to run?)
 - Possibly 100 or so!
- Can we reach out to town registration services like the town or region to promote our camps?
 - Absolutely! We would like you to leverage your connections
- If we do virtual can we expand our area or stay in our regions?
 - Yes - you can definitely expand your area
- Would we be able to run sessions alongside each other? (10 of the same people for every day of the week)
 - Could run multiple sessions per day for different groups
- I know we are focusing on Canada but can we invite international students from underprivileged communities if we can reach them? Since this is virtual.
 - Can invite student from elsewhere (not in ontario) but they won't count towards the 10 students
 - International students in the province will count towards the 10.
- If we are doing remote camps, are participants restricted to within Ontario?
 - The focus is for Ontario Grade 5-9
- Police records checks? Is there a way to access the back check?
 - You can request a backcheck through your team by adding them as a mentor. You can do this through the dashboard by creating a login to the *FIRST* Inspires site.
- How do we determine the qualifying postal codes?
 - If you do have postal codes and are collecting postal codes, we can check these for you to check if they are underserved/underrepresented.
- Do mentors need to be in attendance during the workshop (especially if it's virtual), or is it okay if it's student-led?
 - Yes, YPP policy is that for in-person or virtual meetings, mentors would need to be assigned.
- Where can we find the curriculum? Or is that only available at the training sessions? Thanks!
 - We will inform you when it is available

FRC TEAM RUN SUMMER CAMPS

FAQ

- Do all girls camps qualify?
 - Yes
- Does *FIRST* Canada have access to CAD software licenses like Inventor/AutoCAD?
 - Teams have access to what they would have gotten through KOP. Solidworks and Autodesk do come with your virtual KOP, while Onshape is available for free.
- Are teams allowed to create their own curriculums?
 - Absolutely!
- Is there any help available to youth in the community if access to technology and/or internet is an issue?
 - We don't have the technology but encourage you to reach out to your school board and sponsors
- Working with other FRC teams?
 - Encouraged - could split funding
- Will *FIRST* Canada promote the FRC camps?
 - If you tag us there is a good chance we will retweet and share on how your camps are going!
- Can teams run more than one camp session at a time?
 - Build within your limits. Do what you know what your team is capable of doing! Find your sweet spot!
- Can camps be focused on training FRC students to get on the FRC Team?
 - Yes
