

Pre-Event Screening Recommendation

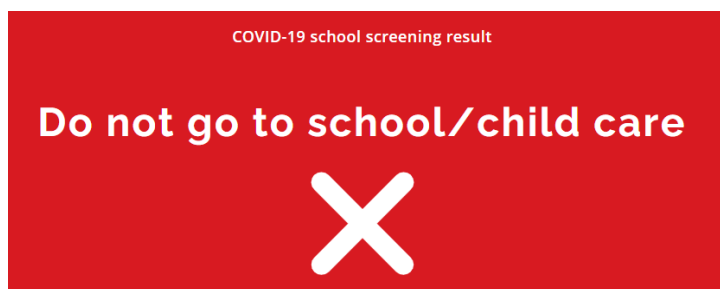

Updated: 05/01/2023

Recommendation

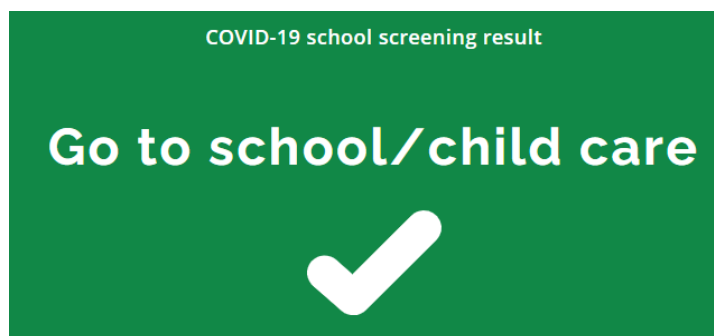

All attendees are recommended to complete the *FIRST* Robotics Canada screening & venue specific screening (if required by the venue) at the start of each day they are attending an event.

The *FIRST* Robotics Canada screening will require attendees to use the following Provincial screening questionnaire: <https://covid-19.ontario.ca/school-screening/>

If you complete the screening and receive a “Do not go” as shown below, you should not attend the event. It is essential that individuals who are not feeling well stay home.

If you complete the screening and receive a “You can go” as shown below, you are fine to attend the event.

Please follow any other instructions you may receive from this screening.
